International Global Health Case Competition COVID-19 Update

March 2, 2020

Dear Emory Global Health Case Competition Participants and Mentors:

We are looking forward to hosting you next week on the Emory campus for our 2020 International Emory Global Health Case Competition! We have received questions regarding the status of competition given the COVID-19 (the novel coronavirus) outbreaks around the world. At this time, we have every intention of hosting and executing the competition as planned. There have been no confirmed cases of COVID-19 in the city of Atlanta or in the state of Georgia. We will continue to monitor the situation and update you of any changes in our plans.

We encourage you to continue to take the following precautions as recommended by the CDC, the WHO, and the National Foundation for Infectious Diseases to protect yourself and those around you.

- Avoid close contact with people who are sick
- Cover your cough or sneeze with a tissue or the crook of your elbow rather than with your hands and throw your tissue away immediately
- Wash your hands often using soap and water for at least 20 seconds
- Use hand sanitizer to disinfect your hands if soap and water are not available
- Avoid touching your face with your hands
- Get a flu shot if you have not already

If you have any questions, please let us know. We look forward to seeing you next week in Atlanta!
