GREEN WATER:
Examining Health, Human Rights, and Business Impacts of Water Privatization

Monday, March 17th, 2014, 5:00 - 6:30 p.m.
Beer and Wine to Follow

Rollins Auditorium, Plaza Level of the Claudia Nance Rollins Building, 1518 Clifton Road

DID YOU KNOW? 36% of the world’s population – 2.5 billion people – lack improved sanitation facilities. 768 million people still use unsafe drinking water sources.

THEN...
How do communities decide to privatize water? In the US? In developing countries?
What are the strengths and limitations of private water suppliers in terms of quality? Reliability? Cost?
What are the intersections of human rights and business?

Come Explore These Questions and More at the World Water Day Event with...
